## **DETAILED ACTION - ALLOWANCE**

1. Claims 1-10 are allowed light of amendments/arguments filed by applicant on October 26, 2004. A statement of the examiner's reasons for allowance is provided below in the paragraph which follows below.

### ***Reasons for Allowance***

2. The primary reason for allowance of the claims is the inclusion of a novel arrangement of contiguous pairs of a plurality lenses to control optical coupling attenuation in a variety of apparatus in which input optical beams are coupled to one of a plurality of optical output facilities, as recited in each of the instant independent claims (e.g. Claim 1, Lines 11-17; Claim 3, Lines 17-32; Claim 8; Lines 13-22; Claim 10, Lines 11-17). The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

### ***Other Remarks/Information***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Walter et al. (U.S. Patent No. 6,657,770) discloses a method for equalizing optical

signal power in a group of optical signals transmitted through an optical switch. Marom et al. (U.S. Patent No. 6,697,574) discloses a programmable optical switch in which input optical beams are coupled to one of a plurality of optical output facilities.

5. The FORMAL DRAWINGS filed on October 26, 2004 are acceptable.

6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
